

Marex 375 Marex | 2018

POA

Fuel Type:	Diesel
Colour:	White

New unused Marex 375 currently on Lough Erne. The new Marex 375 is the largest motorboat from Marex, its design was based on the multi award winning 370 ACC. The idea was to focus on space above the deck, which incorporate two large seating areas. The mid cabin is huge both in function and volume with large hull windows which flood it with light and ventilation. the front cabin consists of a large double berth and plenty of storage space. The Marex 375 also features ground breaking canopy design, the two canopies stow inside vertical compartments in the superstructure and can be full rigged in around two minutes, even when under way.

Length: 12.05m

Beam: 3.55m

Depth 1.05.
