

Willerby <Undefined> Avonmore (Free site fees for 2013 season) |

Introducing the brand new avonmore – A high specification model range that balance great design and value. The large, sumptuous seating area provides the perfect place to relax and unwind, with the soft hues of the oak style units and the rich accent detailing of the curtains combining to deliver a perfect sense of balance and calm. Configure the front of this model as you would like, the standard full-height windows can be replaced by either Outlook French doors or double sliding patio doors, all of which when combined with new bargeboard detailing create an external appearance of some distinction. Separated from the lounge by a stepped partition wall and including a smart twin cavity oven and externally vented extractor hood, the light and spacious kitchen makes a compelling style declaration of its own. The style carries through to the bedrooms. Dressing areas, overhead cupboards, large wardrobes and contemporary fabrics all add to the tone of modern sophistication and intimacy. All models in the Avonmore range include an en-suite toilet and separate family shower room complete with a vanity area with mounted circular basin and one piece shower enclosure. New for 2013, the Avonmore has been carefully designed as an affordable holiday home which doesn't compromise on style or quality
