

Willerby <Undefined> Meridian Lodge (Free site fees for 2013 season) |

From its striking external appearance to the exquisite features and soft furnishings within, the meridian lodge is luxury personified. Combining opulent living areas with distinctive, contemporary furniture this model offers large open spaces with a fresh, modern appeal. Opt for the contemporary weave of the new Azure upholstery to transform the lounge and dining area into a vibrant living space. Alternatively select the perfectly contrasting warm sophistication of the Steel Grey colours which have become a trademark of this popular model. The crisp, clean lines of the fully-featured kitchen are delightfully accentuated by the daylight that streams through the feature windows of the dining area. With spacious en-suite facilities, and walk-in wardrobes (to some models) the bedrooms provide the perfect space for holiday relaxation – there's even an en-suite bathroom in the 42ft two bedroom model. Options include the choice of replacing one of the front bay windows with Outlook doors, or a secluded lounge layout with a sliding pocket door to separate the lounge and dining areas. The addition of a new 36ft model which packs many of the features of the larger variants, provides a perfect solution for those looking for a top of the range holiday home with a more compact footprint. Quite simply the Meridian Lodge sets the standard for luxury and sophistication
