

Willerby Rio Gold (Free site fees for 2013 season) |

With a new rich palette of colour including luxurious wood tones and sumptuous fabrics, the 2013 Rio Gold takes this award winning model range to new heights. Splashes of scarlet red accent detailing bring a sophistication to the warm hues of the upholstery and carpets of the lounge. This is a family-oriented model of some distinction that offers plenty of comfortable seating and a useful dinette which doubles up as a great place for family games and reading the paper, not to mention dining. Plentiful storage and practical use of space combined with brightly coloured work surfaces and upstands to add a clean, fresh quality, typify the kitchen areas across the Rio range. The colourful prints of the headboards and curtains strike a perfect visual balance with the neutral tones of the bedrooms, which still provide plenty of scope to stamp your own style on them. Bright shower rooms finished in pastel blue provide the perfect backdrop to the clinical white sanitaryware and one piece shower enclosure. The Rio Gold represents a great value package, characterised by spacious, generously proportioned rooms, plentiful storage space, contemporary upholstery and soft furnishings
