

Willerby Sierra (Free site fees for 2013 season)

Even at a glance it's easy to see why the Sierra has quickly established itself as a class leading model. With a distinctive front facade that is dominated by windows, the lounge benefits from being bathed in an incredible amount of natural light. The subtle weave in the rich fabric seating is brought to life by the striking colours of the leaf motif woven into the lined front curtains. The functional 'U' shaped kitchen has a modern designer feel with strong natural wood colours perfectly complemented by the cream tones of the cupboard detailing. The addition of a stainless steel cooker hood for 2013 brings a stylish yet functional aspect to the kitchen area. The integrated fridge-freezer links the dining and kitchen spaces together. Options include the ability to specify a fixed dinette seating area to replace the freestanding dining set, as well as opting for the addition of front Outlook French doors. The simple, subtle tones of the bedrooms benefit from a splash of colour provided by the accent detailing of the padded headboards and curtains. Both models provide two toilets - en-suite in the two bedroom version. Practicality is key to the design of this outstanding model, offering fantastic accommodation for both families and couples alike
