

Willerby Winchester (Free site fees for 2013 season) |

With its distinctive profile and innovative design, the winchester is one of the most popular and enduring holiday homes ever built. The subtle enhancements for 2013 bring further refinement to this trend-setting range. New soft furnishings and re-designed furniture combine with higher internal walls to bring a greater feeling of space to the lounge area. The rich distinction of the walnut style wood colour finds a perfect contrast with soft fabrics and natural wall coverings. An optional open plan layout is perfect for those who desire a more free-flowing arrangement, and is one of many options available throughout the Winchester range that allow you to configure this model to match your lifestyle requirements. The light and airy kitchen area is enhanced by high gloss door and drawer fronts and limestone effect vinyl flooring that leads the eye through to the spacious dining area with its elegant upholstered chairs and feature pendant lighting. The main bedroom of the two bedroom model includes an en-suite, large dressing table and a window seat from which to watch the world go by. The family bathroom in the two bedroom model includes a bath with shower, but can be replaced with a large shower enclosure instead. The Winchester blends luxury and innovation seamlessly creating the perfect sanctuary
