Princess <Undefined> X80 | 2023

The beautifully sculpted surfaces and long flowing design lines of the X95 are carried through into her sister ship, the X80. Due to take to the water in Autumn 2021, the X80 becomes the second member of the X Class 'Superfly' family. The X80 has a 'super flybridge' providing in excess of 30% more useful interior space onboard than a traditional flybridge yacht of its length and is available with an optional main deck master stateroom which includes a private owner's sundeck. The X80's capabilities for adventure provides the opportunity to explore cruising grounds further afield with the option of a long range 8,800 litre tank

Vehicle Features
