

Kia Soul 150kW First Edition 64kWh 5dr Auto | Jun 2021

£19,995

REG NEW BY US, EX- DEMO, WITH HEAT PUMP, 6846 MILES

June 2021 first registered. We registered this car from brand new. One keeper from new. Our demonstrator. KIA Soul EV FIRST EDITION 64kWh Li-ion battery 201bhp with 1-speed automatic. 150kW electric motor with drive to the front axle. Neptune Blue metallic with contrasting Black metallic roof. Mileage 6,846 miles. This car uses KIA's long range 64kWh battery, with a quoted single charge range up to 280 miles (this range may reduce with natural battery degradation). CO2 0g/km. £0 Road Tax. Charging using single phase 230V 32amp AC 7.2kW charge takes 9hours 35 mins. A Rapid DC 50kWh charge takes 1hr 15mins to 80% charge capacity. This model features as standard a HEAT PUMP system, which reduces range losses by scavaging the battery heat to power the heating/.air conditioning system. This system can save up to 16% range loss on the battery range. This is a very high specification model with key features including: Dual Full LED Headlamps, Full black leather upholstery, 8-way Drivers Power Adjustable Seat, Heated Front Seats, Regenerative Braking Level controlled by Paddle Shift, Heated Steering Wheel, Adaptive Smart Cruise Control Function, 7 OLED Colour Display Cluster, 10.25 Touchscreen Satellite Navigation, 10-speaker Harman/Kardon Premium Sound System, Apple CarPlay and Android Auto, Wireless Mobile Phone Charger, Reversing Camera System, High Beam Assist, Blind Spot Detection, and Rear-Cross Traffic Assist. Sale will include the balance of KIA's 7-Year/100,000 mile warranty subject to continued manufacturer recommended routine servicing. *Charging times will depend on various factors, including temperature, state of the battery, state of and capabilities of the

charging unit and power supply. Actual charging time will vary depending on the level of charge in the battery, as well as environmental conditions. Charging times will also be affected by the charging curve for example once charging passes 80%, charging will slow to protect the battery's longevity. The availability of the maximum electrical output could be limited. The amount of power available in individual driving situations depends on various factors, such as ambient temperature and the charge status, temperature and condition or physical age of the high-voltage battery. **Lithium-ion batteries, of the type used in most electric vehicles (including KIA electric vehicles) have a restricted lifespan. Battery capacity will reduce over time, with use and charging. Reduction in battery capacity will affect the performance of the vehicle, including the range achievable, and may impact resale value. New car performance figures (including battery capacity and range) may be provided for the purposes of comparison between vehicles. You should not rely on new car performance figures (including battery capacity and range), in relation to used vehicles with older batteries, as they will not reflect used vehicle performance in the real world. For further information on battery degradation/preservation and KIA's battery warranty visit
