

Chieftain <Undefined> 500 Gallon (2230 Litres)

The biggest in our range, the 500 gallon / 2230 litre, Chieftain's UN approved bunded towable Aviation Fuel Bowser complies with all UN fuel transportation regulations and has full EU type approval. This permits the safe and legal transportation of aviation fuel on the open highway. The tough chassis and high speed twin axles ensure ease of towing for the driver, and with a lockable cabinet and ball hitch lock ensure a secure method of bringing fuel to and from site
