Fairline Targa 50 Open | 2024

When you have a new range of motor yachts, you want the world to experience just how stunningly beautiful they are. Introducing the Targa 50 OPEN, one of two Targa's in our new 50ft range, that each have the spirit of adventure in their hearts. Of course, the Targa 50 OPEN is built for speed and all-out thrills. The exterior looks are a giveaway especially with its head-turning anthracite roof. And to add a sporty touch, there is the choice of vivid red, burnt orange or electric blue upholstery and complementing helm seats. On the inside, even more luxury awaits. Beautiful Italian leather. Carefully considered high and low-level lighting to cabins. And in the master cabin, a stunning feature headboard. It's these understated, and not so understated touches, that set the Targa 50 OPEN apart. You can rely on the Targa 50 OPEN to take you to your next destination rapidly, with its impressive performance and manoeuvrability all down to its twin Volvo IPS 600, 650 or 700 engines. But there is even more to look forward to - our Premium Pack option - with specifications including high capacity air conditioning, submersible bathing platform, Bluetooth audio system, a 12" touchscreen display at the helm and exterior mood lighting. This is power and luxury, all at your fingertips
