

Nissan LEAF 160Kw E+ Tekna 59Kwh 5Dr Auto | Jun 2023

£20,899

UP TO 236 MILES RANGE

Introducing the 2023 Nissan Leaf e+, an electric marvel that combines eco-conscious driving with cutting-edge technology. This particular model, boasting a mere 7,000 miles on the odometer, is now available at a compelling price of £24,999.

****Impressive Electric Range:**** The Nissan Leaf e+ is renowned for its extended electric range, and this 2023 model is no exception. With a high-capacity battery, you can expect a substantial number of miles on a single charge. Experience the freedom of emission-free driving without compromising on distance.

****7000 Miles of Pristine Performance:**** This specific Leaf e+ has covered just 7,000 miles, reflecting its minimal usage and excellent condition. With such low mileage, this electric vehicle promises a well-maintained and reliable driving experience for many more miles to come.

****State-of-the-Art Technology:**** Step into the future with the advanced technology featured in the 2023 Nissan Leaf e+. The infotainment system seamlessly integrates with your smartphone, providing real-time updates on your electric vehicle's performance, charging status, and remaining range.

****Sustainable and Stylish Design:**** The Leaf e+ boasts a sleek and sustainable design, embodying Nissan's commitment to eco-friendly mobility. The aerodynamic exterior is complemented by signature LED lighting, making a bold statement on the road while contributing to a cleaner environment.

****Full Charge Expectations:**** With the Leaf e+, you can expect an impressive electric range from a full charge. While specific mileage can vary based on driving conditions and other factors, the Leaf e+ is designed to offer extended range capabilities, providing a confident and stress-free driving experience between charges.

****Exceptional Value:**** Priced at
