Fuel Type:	Petrol
Transmission:	Automatic
Colour:	Red
Body Style:	Coupe
Reg:	BF19KZD

Charles Hurst Ferrari are delighted to showcase this beautiful 812 Superfast. Originally supplied by us, this car was carefully configured in the atelier suite at the factory in Maranello. Finished in Rosso Scuderia, our red of choice, this car is a head-turner. The colour complements its fluid yet muscular contours, ensuring it looks as dynamic as its performance feels. Carbon fibre exterior options add the sporty, yet luxurious feel to the car. These include front spoiler, front air intake, under-door trims, lower rear bumper trims and centre caps. The 20" forged racing wheels finished in black complete the whole look of this car. Come inside the car and the list of carbon fibre continues, from the exterior sill plates that you step across to enter the cabin, right through to the carbon fibre driver zone, including the dashboard inserts and steering wheel which house the LED shift lights. The carbon fibre racing seats finished in black leather have contrasting red details which continue around the cockpit, dashboard and on the steering wheel. To round up a detailed specification the car comes with suspension lift in conjunction with adaptive frontlight system. This 812 Superfast has been rigorously maintained under the stringent standards of the Ferrari Approved program. . UK Nationwide Delivery is available via covered transport if required. If you wish to find out more detail on this 812 Superfast or would like a video walk-round presentation, please contact our Sales Team on 028 90385755
