The redesigned third generation ŠKODA FABIA takes a classic and adds so much more. The sleek new design takes what was an already hugely popular model and makes it more compelling than ever. A restyled front and rear gives the FABIA more presence on the road, and that coupled with a host of new safety features such as Blind Spot Detection, Rear Traffic Alert and Auto Light Assist give you more confidence on your drive. The functional and stylish interior makes it not only a comfortable drive, but allows you to stay connected on the move, with a whole host of connectivity features. We think you'll agree that today's FABIA is as much a joy to drive and just as relevant as when we started
