

Porsche 911 S 2dr Tiptronic S | Jun 2006 997 4S - RARE X51 POWERPACK WITH FULL SERVICE HISTORY

£33,995 O.N.O

Porsche Carrera 4S Tiptronic with many of the factory optional extras and full service history. One of them being the rare X51 Powerkit. Only originally available as an option on "S" 911 models at a cost of circa 8,250 it offers an increased output of 381 bhp, resulting in a 0-62 mph time of just 4.6 seconds. The key advantage of the Powerkit package is the optimised gas-flow on inlet & exhaust. It benefits from: modified cylinder-head geometry, an aluminium intake manifold, revised exhaust manifolds with larger bores, enhanced engine management system, carbon-fibre air filter housing & sports exhaust system with integral sports tailpipes. All are designed for maximum throughput and therefore maximum performance.

Tests were carried out including an inspection of the cylinder bores (for bore score) of which all ok, inspection of IMS bearing confirmed to be in good condition, new track rods & track rod ends, all coolant crossover pipes & rubber hoses replaced, coolant thermostat replaced with low temperature type, both front air con condensers replaced and system re-gassed, new sports exhaust valve, both exhaust sleeves replaced, both catalytic converter clamps replaced, both cat to exhaust manifold gaskets & fixings replaced, exhaust heatshields replaced, new underbody air deflectors. All of this was done to keep the temperature in the engine bay as low as possible therefore eliminating any engine issues such as bore score. At the front some radiator grills have been fitted to prevent any stones causing damage to the radiators and at the rear a ducktail spoiler (original spoiler is still available).
