With this NX, Lexus brought us a strikingly styled premium compact SUV that was unafraid to go its own way when it came to cars of this kind. It's the only model in the premium mid-sized SUV segment that can't be had in diesel form, with most variants instead offering beautifully refined and highly efficient petrol/electric hybrid power. The brand used this car to increase its European sales by a third. It certainly changed the way a lot of people felt about Lexus. Fusco Vehicle Sales - North Down's largest used car dealership.
