Superb condition throughout. Completely solid underneath, don't let the age put you off, many many years left! Meticulously cared for and maintained! New Timing belt kit / water pump replaced and fully serviced. Super low mileage example (**Only 64K**). Very versatile little van, fully wheel chair converted with access ramp. Also ideal for a small gardening business / lawnmower transport. Insured as a passenger vehicle so much cheaper and more convenient than a Van. Sold with a full years Mot. Has to be seen to be appreciated.
