Car runs great when driving "I am still driving this daily until sold"

Car can be jittery and play up a bit on a cold start (usually after sitting all night) this is not an issue as once the car heats up it is fine and I have had it checked.

Car has genuine BMW alloys refurbished to gloss black.

Car has always got what it has needed it has 2 new rear tyres.

Had a service just over 4 months ago.

Current issues

""Driver door handle does not work on the outside. I have the Bowden cable here to fix it I just have not had the time"

""The car recently had 2 new breaks pads on the rear but the sensor is saying they need changed, I just haven't got around to fixing this"

MOT until march 2025
