The vehicle underwent a visual inspection, received a fresh MOT, lubrication service, and brake fluid change at the end of 2023. Recent work includes new fan belt, all pulleys and brake pipes.

The car is in excellent condition throughout, with a modest mileage on the clock. With over £9,000 of receipts from the previous owner in his five years of ownership, this 996 has had all common issues and failures addressed, including an IMS bearing upgrade for peace of mind.

Other mechanical refreshments include a new IMS seal, RMS seal, clutch kit, flywheel, suspension arms, top mounts and bearings, exhaust silencers, and more. It also features high-quality Bilstein fully adjustable coilover suspension for improved handling and road characteristics.

The vehicle has undergone a £2000 comprehensive detail by Studio Ten (ex Porsche specialist technician/Previous Owner) to ensure the vehicle is in immaculate condition throughout and has premium ceramic coatings applied to the paintwork, alloy wheels, brake calipers, exhaust tips, glass and non painted trims to ensure the quality finish presented lasts for years to come.

The car has been dry stored by myself and previous owners.
