2010 Audi S4 (B8), MOT (expires 4/11/24)
89,000 miles in immaculate condition for age.

Benefits from a genuine carbon pack (interior), Nappa Black leather, Bang & Olufsen system, Q Sport Differential (rare option), 19" RS6 wheels from factory.

The car is a Japanese import, immaculate condition underneath. Recent service included water pump, thermostat, belts and a Supercharger Service. All known B8 weak points - fitted with later upgraded parts.

I have added an 034 Motorsport rear anti toll bar and gearbox insert, APR Carbon intake, Goodridge braided lines, RBF660 fluid, Vagtech J hook disks and Apple Car play. Wheels refurbished and powder coated by Powdertek (2022), Paint correction and ceramic coating by PMG in 2022 (Gtechniq crystal serum ultra), glass and wheels were also protected.

A lovely example of a very capable, fast estate that wants for nothing.
