

Audi A4 Derivative | Jun 2003

NEW TIMING BELT & WATER PUMP. MOT UNTIL LATE FEB 25

£1,200 O.N.O

Miles:	200034
Fuel Type:	Diesel
Transmission:	Manual
Colour:	Grey
Engine Size:	1896
Tax Band:	G (£255 p/a)
Body Style:	Estate
Reg:	Agz9171

1.9 TDi diesel, A4 B6 Avant Estate. 200k miles.

Incredibly reliable, mile-munching beast of a car with a legendary engine that could withstand a nuclear explosion. The need for a bigger family car forces sale.

MOT late Feb 25 (Passed previous 3 MOTS first time with no minor defects)

2 keys

Clutch 100%

Bulletproof engine

Timing belt & pump replaced Sept 23

Dual climate control (ice cold)

Cruise control

New driver side window regulator

New rear brake pads

Large boot (with tailored liner)

Hardwired front dash cam

40+ MPG

Regularly serviced

Front wind deflectors

The driver's side wheel arch has rust (common issue).

HOWEVER, I have a brand new, pre-painted replacement wing ready to fit (you'll have to fit it yourself, though).

Some superficial damage to driver side front bumper (see pics).

Interior is clean, but there is some age-related wear and tear and the headliner has gone saggy.

I love this car and I'm in no hurry to sell, so silly offers or time wasters will be ignored.

Any genuine questions, please don't hesitate to contact me.
