4MOTION SE NAV

The 2016 Volkswagen Tiguan 4Motion SE Nav is a compact SUV that offers a blend of German engineering, practicality, and premium features. This model is known for its refined driving dynamics, upscale interior, and the capability of all-wheel drive, making it a popular choice among compact SUV buyers. Engine and Performance The 2016 Tiguan 4Motion SE Nav is powered by a 2.0-liter TSI turbocharged four-cylinder engine that delivers 200 horsepower and 207 lb-ft of torque. This engine is mated to a 6-speed automatic transmission with Tiptronic and Sport mode, which provides smooth and responsive shifts. The 4Motion all-wheel-drive system enhances the vehicle's traction and stability, making it suitable for various driving conditions, including light off-road use. The Tiguan's performance is sprightly for the segment, with a 0-60 mph time of around 7.5 seconds. Fuel efficiency is decent, with an EPA rating of around 20 mpg city and 24 mpg highway. Interior and Technology Inside, the 2016 Tiguan SE Nav boasts a high-quality cabin with soft-touch materials, comfortable seating, and an overall upscale feel that rivals some luxury brands. The interior is well-designed with a straightforward layout, featuring an 8-way power-adjustable driver's seat and heated front seats as standard in the SE trim. The rear seats offer good legroom and can slide and recline, adding to passenger comfort. Cargo space is somewhat limited compared to competitors, with 23.8 cubic feet behind the rear seats, expanding to 56.1 cubic feet with the seats folded down. The SE Nav trim comes equipped with Volkswagen's Composition Media infotainment system, featuring a 6.5-inch touchscreen display, navigation, , and a USB port. It also
