**NEW 2024 BMW G310GS**

**£5,499**

<b>Transmission:</b>	Manual
<b>Colour:</b>	Black

The BMW G 310 GS promises pure riding pleasure for everyday adventures. Impressively superior, it also guarantees 100% GS feeling with 34 hp, is manoeuvrable and agile in city traffic and is also always in its element on light terrain. An exciting and adventurous machine with impressive versatility in this class. The fast-revving single cylinder engine is extremely quiet and fits perfectly to the robust, stable suspension that excels with precise steering characteristics. The G 310 GS offers excellent ergonomics and allows for a particularly relaxed sitting position, which brings carefree motorcycle enjoyment both on the road and during excursions on forest paths and gravel tracks. From the first glance, the machine also looks like a genuine GS. With the characteristic high front fender, the striking flyline and the short, high rear, it embodies the classic GS look in an ideal way. Added to this are modern features such as LED headlights and LED turn indicators. The compact proportions with short wheelbase, 19-inch front wheel and the long spring travel complement the attractive package. Thanks to its impressive qualities, the BMW G 310 GS is the perfect choice for the urban jungle, but it also tempts the rider to venture on to terrains less travelled
