Beautiful head-tuner car for enthusiasts. Handles like a dream and sounds great. You can really attack corners and i've spent a lot of money recently on the handling like rear kidney brackets, W brace and bushings. Selling it as I'm not getting the use out of it due to work and wanting to travel. I'll definitely be buying another one in the future again. Best bang for buck and really puts it up to cars that are 20 years younger, especially in the corners. Low maintenance and super reliable DE-engine.
