Immaculate showroom condition NC Mk 2.5. The Timing belt and water were pump done this year. A brand new mohair hood was fitted last year, and. Landguard underbody protection was also applied last year. I have owned the car for over four years, the previous owner had it for 12 years, he did his own maintenance, hence a service history gap. Apart from that, there is a full service history record with lots of documentation. Of the two previous owners, the first purchased brand new and the second purchased it from Shaws Mazda. I have the original bills of sale from both transactions. I have lots of other documentation including all MOT certificates and tax discs going back to 2007 together with folder full of history. I will include a clean Haynes Workshop manual and a hard back book detailing the history of the MX5 from original concept to 2013 model when the Mk 4 was introduced

There's no age related bodywork marks, it is in showroom condition The car was mechanically polished and detailed last year.

This is a unique rare unmolested original car and it was shown at the Stormont Classic Car show earlier this year. I will be pleased to put the car thru an MOT for a buyer
