AUTOMATIC, LEATHER, REVERSE CAMERA

Mini has a reputation for building cars that are fun to drive, with the Clubman being no exception. Quick, direct steering means it turns in to a corner eagerly, while tight body control means it barely leans over as it does so. There's loads of grip, too, and the chassis responds well to the accelerator, so you can easily adjust your line as you go. In short, it's far more fun that it has any right to be. The effect is amplified by the engines; even the cheapest petrol has a sporty sound and is perky and responsive, while more potent models are genuinely fast, Diesels, too!
