

Citroen C5 1.6 HDi 16V VTX+ 5dr | Sep 2007**£1,150** O.N.O

Sadly time to part with my C5 that I've had for 16 years, just run in at 223 K with MOT until Aug 2025 !!! Rear wings both sides bubbling as can be seen, common problem. Radio only works in warm weather and heater only blows hot on passenger side, another common fault but a bit of a siege to fix. Cold hot works on drivers side.

Hydraulic suspension working no problems and drives great still. New tyres on front and very good on rear. Has been very well maintained over the years, got whatever was needed and did most of the work myself so know it was done right.
