Since being returned to us it has been fully checked over by our fully trained, experienced and skilled technicians and is ready to go.

DIMENSIONS

Length:	4650mm
Width:	1790mm
Height:	1435mm

Key Features: Engine and Powertrain: 2.0-liter VVT-i Hybrid Engine: The Toyota Corolla GR Sport is powered by a 2.0-liter petrol engine paired with an electric motor, producing a combined output that is more powerful than the 1.8-liter variant, delivering quicker acceleration while maintaining hybrid fuel efficiency. Transmission: Like other Toyota hybrids, the GR Sport uses a CVT (Continuously Variable Transmission), which offers smooth power delivery and helps optimize the balance between performance and fuel efficiency. The CVT ensures responsive acceleration while keeping engine RPM low. Fuel Efficiency: Despite the more powerful engine, the hybrid system helps achieve impressive fuel economy, with the GR Sport typically delivering around 50-55 mpg, making it a great choice for long-distance travel. Emissions: CO2 emissions are low for a 2.0-liter engine, typically around 100-110g/km, resulting in lower road tax and better environmental credentials compared to many non-hybrid rivals. This car is supplied with the following optional upgrades :- Tech Pack which includes Satellite Navigation and Heated Seats.
