

Suzuki Vitara 1.4 Boosterjet 48V Hybrid Sz-T 5Dr | Sep 2021

£13,499

LED DAY LIGHT RUNNING LIGHTS

The 2021 Suzuki Vitara 1.5 Hybrid SZ-T is a compact SUV that combines practicality, efficiency, and Suzuki's signature off-road capabilities. It is equipped with Suzuki's 1.5-liter mild hybrid engine, offering a blend of petrol and electric power, providing both performance and fuel efficiency. Engine and Performance The Vitara SZ-T is powered by a 1.5-liter 4-cylinder petrol engine, which, combined with Suzuki's mild hybrid technology (MHEV), delivers a maximum power output of 114 bhp and 138 Nm of torque. The hybrid system features a 48-volt battery that assists the engine during acceleration, improving fuel economy and lowering CO2 emissions. The engine is paired with a 6-speed automatic transmission, and the vehicle is available with ALLGRIP four-wheel-drive as an option for enhanced traction on various terrains. The hybrid system is designed to capture energy during braking and deceleration, which is then used to provide a small boost when needed, reducing strain on the petrol engine. This configuration makes the Vitara more environmentally friendly while also offering better performance during city and off-road driving. Fuel Efficiency Fuel efficiency is one of the key selling points of the 2021 Suzuki Vitara Hybrid. The combined fuel consumption figure is approximately 48.4 mpg (miles per gallon), although real-world driving conditions may slightly affect this number. CO2 emissions are relatively low for a vehicle of its size, sitting at around 106 g/km, helping to keep running costs down. Exterior and Dimensions The exterior design of the Suzuki Vitara SZ-T is modern and rugged, reflecting its off-road capabilities. The vehicle features 17-inch alloy
