The 2017 Audi Q3 1.4T FSI Sport is a stylish and compact luxury SUV that combines practical urban utility with premium features, showcasing Audi's renowned build quality and engineering.

Here's a detailed look at its specifications: **Engine and Performance** The Audi Q3 1.4T FSI Sport is powered by a 1.4-liter TFSI (Turbocharged Fuel Stratified Injection) petrol engine. This 4-cylinder engine delivers 150 horsepower (110 kW) and 250 Nm of torque, providing a smooth balance between performance and fuel efficiency. The engine features direct fuel injection and turbocharging, allowing it to offer strong mid-range power for city driving and highway cruising. **Transmission:** It comes with a 6-speed S tronic dual-clutch automatic transmission that allows for quick and seamless gear shifts. This transmission enhances the driving experience by providing both manual and automatic modes for a more engaging or relaxed drive, depending on the driver's preference. **Performance:** The Q3 1.4T accelerates from 0-100 km/h in around 9.2 seconds, with a top speed of 204 km/h. While not overly sporty, it provides enough power for everyday driving with a focus on efficiency. **Fuel Efficiency** One of the key highlights of the Audi Q3 1.4T FSI Sport is its fuel efficiency. It offers an excellent balance between power and economy, with a combined fuel consumption rating of around 6.0-6.2 liters per 100 km, depending on driving conditions. This translates to approximately 47-50 mpg (UK), making it a cost-effective option for a luxury SUV in its class. **Exterior Design** The Q3 has a compact yet bold design typical of Audi's SUV lineup. The Sport trim adds a bit of athleticism to its exterior styling, with features like: 18-inch alloy wheels (with an option for 19-inch alloys). A
