The 2021 Tesla Model 3 is an all-electric sedan known for its impressive edge technology. With a minimalist interior, it features a large touch functions, reducing the need for traditional buttons and switches. The model 3 comes in multiple variants, including Standard Range Plus, Long Range, and Performance, offering different levels of range and power. The Standard Range Plus provides an estimated range of around 263 miles. The Performance model delivers a faster acceleration time, achieving 0-60 mph in just 3.1 seconds. Tesla's advanced Autopilot system is available, with options for Full Self-Driving capability. The Model 3 accommodates five people and a large trunk, making it both practical and comfortable. Its exterior is characterized by a smooth, aerodynamic shape, and it features high-end materials and finishes inside. With its combination of long-range capabilities, high-tech features, and quick acceleration, the 2021 Tesla Model 3 stands as a highly competitive option in the electric vehicle market. Standard features on this car include Sport suspension, Speed sign recognition, Lane keeping aid with lane and much much more.
