Very rare colour in one of these, great driving car and won't be faulted driving.

Has just been service and timing belt and water pump replaced this month.

Car has travelled 194000 miles and has the odd mark on the body as expected with age and miles.

Brake light comes on now and again when first started but goes off and doesn't effect the car at all driving I have had it to mechanics but never was faulted and doesn't effect the car in any way.
