This five-door hatchback is so recommendable, in fact, that it's been our favourite budget small car for four years running, proving it offers more than just a small purchase price. For starters, it's one of the most practical cars in its class, but of course there are drawbacks - there have to be given how cheap it is - with previous models being sparsely equipped and forgettable to drive. For 2017, though, the Sandero has been given a facelift which brings a refreshed design for the front and rear, including LED daytime running lights, plus more equipment inside and a new engine, all without incurring a price rise. So, is this enough to help it see off its closest rival, the new Ford Ka+, and smaller city cars such as the Skoda Citigo.
